

STEPS OF SUCCESS

Map your dance journey from the very beginning to your biggest goal

TIPS

- There is success at each step, not just the top.
- Everyone's journey looks different. Own yours!
- Don't be afraid to dream BIG for your top goal. You can always take more steps in between if you need.
- Take time to reflect on where your journey started and how far you have come. This is just as important as planning how to climb higher!
- Steps can include skills, mindset changes, experiences, etc... Not just placements!
